- Diplomatic sea and air shipments: Aprox. 7 working days

Motor Vehicles

Except for diplomatic shipments, importation of used motor vehicles is prohibited.

To import a motor vehicle, it must be brand new, it must be inspected at origin before embarkation (even if it is sharing a container with household goods) and an import permit must be previously approved in Ecuador.

Motor vehicles are subject to duties (approx. 65% of CIF value).

Procedures

Be advised that according to a new **Customs Law issued by the Ecuadorian Congress, and published at the Official Register On May 3rd, 2003**, verification at origin for shipments whose value for customs is equal or greater than US\$ 4000.00 is mandatory, also the issuance of a Marine or Air Transport Insurance for the international transportation leg of the shipment by Companies Established in Ecuador is being enforced in this law to determine the CIF value of the shipment and is one of the documents to be obtained in Ecuador to request the verification at origin. **Presence of the customer** in Ecuador for these previous steps is not needed. However a copy of the customers Passport (all pages) is required. **In the event a shipment arrives to Ecuador without the Inspection Certificate**, the Customer has 15 Working days upon the arrival date of the shipment to request Ecuadorian Customs Authorities at Port/Airport of shipment's arrival: re-embarkation, in this case Customer's presence is needed to sign personally this request and present additional obligatory documents, as per Customs Procedures valid at that time. -If in this period of time, Customer does not apply for it, Customs will confiscate the shipment.

Only the following imports are exempted of Verification at Origin:

- 1) Imports destined for the Diplomatic and Consular Sector
- 2) International Transit Regime
- 3) Traveler's accompanied baggage
- 4) International Mail Traffic and Courier
- 5) Border Traffic.

- It is important to differentiate between [Declared Value For Customs] and [Declared Value for Insurance].
- It is recommended that these figures are not indicated on MAWB, HAWB, MBL or HBL. -The process of assessing values to the shipment based on the consularized list is a careful coordination between customer, origin agent, customs broker and destination agent.
- It is also expected, that in a near future, this new Law be reformed.
- It seems that if this happens, the verification at origin for Household Goods according to its value and the insurance clause would be deleted.

VERY IMPORTANT:

In the description cargo box of the OBL should say the following: EFECTOS PERSONALES Y MENAJE DE CASA USADOS or USED PERSONAL EFFECTS AND HHGDS
