General			All prohibited articles detained by customs may be destroyed without the consignee's consent. There are no records available of items destroyed. WOOD PACKAGING (ISPM 15) – FUMIGATION REQUIREMENTS IN OMAN The Ministry of Agriculture and Fisheries (Plant Quarantine Department) has advised that effective from 1st January, 2007 the export of any commodity packed in wood with thickness exceeding 6 mm will not be allowed for Export and Import unless they are treated by heat or fumigated by methyl bromide gas and bears the official recognized stamp by the Ministry or the authorized private companies. This requirement also applies to the imported goods to the Sultanate packed in the same wooden material, which shall not be allowed to enter the Sultanate without being similarly treated and bear the recognized official stamp. Therefore, for all export shipments from 1st January 2007 which are packed in wood with thickness exceeding 6 mm should be heat treated or fumigated and packages are stamped as above. The necessary heat treatment/fumigation certificate should be attached to the Customs Bill of Export before processing. For commodities which are packed in wood with thickness of 6mm or below and or packed in packaging materials other than wood, a declaration from the shipper in their letter head duly signed and stamped should be attached to the Customs Bill of Export before processing. Your OMNI agent will also need a copy of the certificate or declaration as the case may be while booking the cargo for export.
