General Remarks	<p>A single U.S. Customs Form 3299 can be accomplished to cover both the Foreign household goods shipment and the Foreign Automobile shipment provided that they will both arrive on the same ship and provided that the same Ocean Bill of Lading covers both.</p> <p>Coinciding with Customs' change to an electronic processing system, all shipments have to be consigned correctly. Incorrectly consigned shipments may incur demurrage.</p>		With the implementation of this new tax system, random inspections of shipments will increase substantially, causing delays and additional charges. It is important that the client declares any new items included in the shipments to avoid penalties and further delays.
