| <b>Export of Vehicles</b>  | <p>There are two ways of exporting vehicles from Slovenia and the procedure for these is different.</p> <p><b>Loading the vehicle into a container or on a trailer:</b></p> <ul style="list-style-type: none"> <li>▪ Before the vehicle can be exported it needs to be de-registered. If de-registration has not been done prior to the export of the vehicle, the client must send back the export document that was stamped at the border with the car plates and the Slovenian car papers. Following the de-registration process the car must be taken for a customs inspection. It can only be inspected if it is already on the trailer or in the container. The driver will receive the customs declaration which they will take with them to the destination country.</li> </ul> <p><b>Driving the vehicle through the border:</b></p> <ul style="list-style-type: none"> <li>▪ Before the process can occur, an export inspection must take place at origin. The individual driving the car out of the country must buy a forwarding bond at the time when they are entering other countries. Countries not part of the EU will require their own forwarding bond.</li> </ul>  |
| <b>Export of Pets</b>  | <p>Please leave at least a week to gather all necessary documents for the export of your pet from Slovenia. Photocopies of all documents are to be carrier with the shipper.</p> <p><b>Notes:</b> It takes one day to clear a pet coming out of Slovenia. To make the journey as comfortable as possible for your pet we recommend the following:</p> <ul style="list-style-type: none"> <li>➤ Let your pet get accustomed to the kennel before it travels.
